## Features

- Length: Up to 7'2" RL
- Width: 5 OR 3 1/4" (select colors)
- Thickness: 1/2" 3mm Sawn Cut Face
- Finish: TrueMark® Glaze Tek
- Edge Detail: Handcrafted Microbevel
- Certified: EPA - TSCA Title VI Compliant  
3rd Party Certified - Responsibly Harvested
- TrueCore: 3rd party certified
- Warranty: Limited Lifetime residential finish  
Limited Lifetime residential structural  
5 year commercial finish  
10 year commercial structural
- Maintenance: Clean with True Clean® Floor Cleaner.  
For full care and maintenance instructions visit  
[HallmarkFloors.com/Floor-Care-Maintenance](http://HallmarkFloors.com/Floor-Care-Maintenance)

## Benefits

- Finish: 12 coats of Aluminum Oxide hand glazed satin finish  
Guaranteed quality and durability - long lasting finish
- Wear Layer: Same visuals as 3/4" solid wood floors  
Top layer provides lasting durability  
Vertically sliced - Delivers greater strength
- Structure: Greater dimensional stability than 3/4" solid  
Healthy indoor air quality

## Trim Options

- Stair Nose
- T-molding
- Threshold
- Reducer

## Installation

Nail Down

Glue Down

Float

Over Radiant Heat  
(Excluding Hickory)

Installs over: concrete, wood, vinyl floors and radiant heat systems. Above, on or below grade.

## GRADES & RUN VARIATIONS:

**Select Grade** – May also be referred to as Prime grade, AB grade or 1st grade. Select grade shares traits with clear grade in as much as there will still be a strong uniformity of color and pattern, so you shouldn't see any glaring differences from plank to plank or in the finished floor overall. However the natural colors and grain patterns of the wood will be more diverse, allowing more of the woods character to come through. For example clear grade wood typically has more straight/vertical grain patterning while select grade will show far more open grain patterning like swirls and burls. As only around 15% of the wood of each tree conforms to this grade it is a more expensive option, but that doesn't mean it is better. This is a great choice for homeowners looking for a refined, clean and unfussy finish.

**Character Grade** – Can sometimes be referred to as Natural grade or 2nd grade. With this grade of wood you will really start to see the natural character of the natural wood species that you've chosen. There will be bigger variations in color tone from plank to plank, more noticeable marks, including small knots, streaks, worm holes, checks and fine cracks. It is perfect for owners who want to achieve that natural, non-uniform look of real wood.

**Mill Run** – Can also be known as Rustic grade or 3rd grade. If you like your wood floors rough and ready with any and all variations in color, grain patterns and character defects then this grade is for you. Pieces will vary wildly from one another creating a beautiful patchwork effect. It is worth mentioning that once you start looking at Character and Mill run grades you will also really start to see the difference between different species of wood.
