V2 - SLIGHT BOARD VARIATION*
DIFTWOOD & TOBACCO HAVE A V3 RATING: SUBSTANTIAL VARIATION

Color, Graining & Natural Changes

Wood is a natural product that features distinct color and graining. Each board is unique in its characteristics and will vary from piece to piece. The floor represents the natural visual characteristics of wood. Surface Texture: Light to medium hand sculpt. These subtleties may become more distinct over time due to exposure to direct sunlight. Occasional rearranging of furniture and rugs will help reduce the potential affects of the sun.

Note: This sample may not be representative of your entire installed floor, for your reference and the latest updated information, please refer to www.hallmarkfloors.com to see our online room scenes and project galleries.

Maintenance

See Maintenance and Warranty Guide
Carb II Compliant
